mitzvahs • expectancy/announcements •
travel/vacation videos • sports highlights • concerts •
dance recitals • custom slide shows • family reunions •
and more

YOUR STORY

If a picture speaks a thousand words, how many words describe a video? Wouldn't it be great if everyone that laid eyes on your family film would describe it as "Amazing", "Outstanding", "Breathtaking", "Phenomenal", or simply "Wow!"?

As a professional award winning video editor, I take pride in being able to help create and share lasting memories for you and your loved ones for generations to come.

This is your life, your journey, your story... Let's tell it right.

ALLOW ME

Do you have an event captured on film, video, or photos with no one to put it together in a creative, meaningful, emotional, and professional way?

Allow me to be there for you in your times of need.

I too have a family whom I love and cherish, and as such, I know what it means to deal with sensitive subject matter and to respect the wishes and privacy of all those involved.

With my full in-house, 100% U.S. - based, video editing suite, you can feel at ease knowing that your family is being well taken care of and those timeless memories are being well preserved. I will take your raw footage and work closely with you to help tell your story by crafting out a powerful finished masterpiece that can be shared with your entire circle of family and friends.
